THE MARION DAILY STAR.

VOL. XIII. NO 233. MARION, OHIO, TUESDAY, AUGUST 19, 1890. PRICE 3 CENTS.

Will They Arbitrate?

State of Affairs of the Central Strike.

CORRESPONDENCE MADE PUBLIC.

Mr. Powderly's Letter to Third Vice President Webb, and the Railroad Official's Reply—But Little Change in the Situation of the Strike.

NEW YORK, Aug. 19.—Vice President Webb last night made public the correspondence between Mr. Powderly and himself. Mr. Powderly, on Saturday, wrote Mr. Webb stating that he expected by Monday to have completed his inquiry into the cause of the strike and he would be glad if an interview could be arranged for Monday morning between 10 and 12 o'clock. He desired to discuss the question of arbitration of the differences between the company and its Knights of Labor employes who were discharged prior to Aug. 8.

Vice President Webb replied, agreeing to the interview, but suggesting that, as the reports of interviews already had between himself and Messrs. Holland, Hayes and Donovan, on the same subject, had been greatly misrepresented, it would be for the interest of all concerned if the matter which Mr. Powderly asked to present were put in writing.

On Sunday Mr. Powderly wrote Mr. Webb that he was called away from the city, and was therefore obliged to commit to paper what he would rather discuss personally. He was informed that old and faithful employes had been summarily dismissed because they were members of and active in the Knights of Labor; that up to the time of their discharge they were faithful employes, with good records. The frequency of the dismissals left little room for doubt in the minds of the men that they were all in danger of discharge at a moment's notice, and hence the strike.

"The whole question hinges upon the discharge of Knights of Labor, because they are such. If it can be shown that these men were working injury to their employers, right minded men will say they are treated as they deserve. If they were discharged for cause, the company has everything to gain and nothing to lose from an investigation. If they deserved dismissal from the service none of us will ask for their reinstatement. If, however, they were displaced because of their connection with the Knights of Labor, it should be known, for if it is to be the policy of the company that no members of the Knights of Labor are to be employed, then a statement to that effect will clear up all doubts, and there can be no future misunderstandings. There will be nothing to arbitrate so long as you hold that opinion.

"The interests of the public and of the company and the rights of men to organize for self-protection are all involved in this contest. The policy of the Knights of Labor is to work peacefully in the line of educational and legislative reform. It is not their policy to enter hastily upon strikes. The present strike may be pointed to in refutation of this assertion but until an investigation is had that must remain a disputed question. The interests of the public require that freight and passenger traffic should work smoothly, the interests of the company require exactly the same thing, and, in addition, that such traffic prove remunerative; the interests of working people are the same as the other, but their right to organize and select the organization they wish to belong to is fully as dear to them as their pecuniary interests can possibly be.

"Here is an organization, the aim of which is to work for educational and legislative advantages, called upon to defend its members, who up to the time of their dismissal had worked only in educational and legislative directions. Surely we have a right to question why they were discharged. Each man, no matter how humble, is as much a part of the public as any other man. True, the New York Central and Hudson River railway is tributary to the comfort and well being of the company, but the community gives to the corporation in question its strength and wealth, and of that community at least two-thirds are working people who belong to that same element of society that dare not organize for their own welfare.

"Some one has said since this strike began, 'money is not everything in this world.' He was a railroad director, I think. He spoke truly, for liberty is far dearer to the laborer, and that is what he struggles for; that is what is denied him when he is discharged for being a Knight of Labor. If liberty was once valued so highly that men offered up life and treasure, and sacred honor to gain it, surely their children should not be blamed for striking for it. Whether they struck wisely in this case is yet to be determined. Who is to determine? You may feel that you are right; the men may feel that they are right; both are partisans, and if an impartial verdict is to be reached, impartial men must arrive at it by hearing both sides and then judging.

"The men are willing to submit the case to such arbitration and will not be unreasonable. Will you consent to do the same? I will return to the city as soon as I can meet my engagements and if you will meet me at the St. Cloud hotel it will be carefully attended to and placed before me on my return. I remain, yours very truly,

"T. V. POWDERLY,
Grand Master Workman Knights of Labor."

NEW YORK, May 18, 1890.

To Mr. Powderly, St. Cloud Hotel New York:

DEAR SIR—I have received this morning the communication of date Aug. 17, addressed to me by you as the general master workman of the order of Knights of Labor.

Replying thereto, I have to say that no one of the persons discharged from the services of the company prior to Aug. 8, and referred to in your communication, was discharged because he was a member of your order.

The immediate superiors of each of said persons reported to the superintendent good cause for the discharge, and the superintendent investigated each case. The management also investigated them, and the action of the superintendent was approved.

The management do not deem it consistent with its continuance and prosperity in business, and with the discharge of the duties it owes to the people, to submit the propriety of its action in the discharge of any of its employes to arbitration. I have read your communication with care and I think the foregoing answers the points presented by you and defines the position of the company. Yours, etc.,

H. WALTER WEBB,
Third Vice President.

Blockade Continues.

ALBANY, Aug. 19.—The blockade continues. The green hands make very slow work of handling cars. The ill-feeling over the action of the Pinkerton men continues but no trouble was had yesterday, only one assault was made upon a Pinkerton man. He was hit on the face with a brick and his nose broken.

No Change at Buffalo.

BUFFALO, Aug. 19.—Mr. Powderly left for New York last night and Mr. Sweeny followed him. Very little freight was moved in the yards yesterday. The situation is unchanged.

Lee's Cipher Dispatch.

BOSTON, Aug. 19.—Mr. Lee, representing the Knights of Labor, yesterday sent from Buffalo the following cipher dispatch to the New England Protective Railway union in this city: "Whatsoever, whatever, or more; be in readiness."

President R. B. Turnbull, of the New England union, says that the dispatch calls upon the men here to be prepared for any emergency. He says there is a possibility of a general strike. The men here would not strike from sympathy, but if such a move would benefit New York strikers they would go out. The roads to be affected in that case would be the Fitchburg and Boston and Albany.

Machinists' Demands.

PITTSBURG, Aug. 19.—The machinists employed in all departments of the Westinghouse Company Air Brake works will present a petition to the company for nine hours' work with ten hours' pay. If the demands are not granted the men will strike within forty-eight hours. About 1,200 men will be affected. The machinists in the electrical department of the Westinghouse company are now on a strike, and the movement is in sympathy with the machinists in that department.

One Thousand Men Out.

LYNN, Mass., Aug. 19.—One thousand men are now out of employment, owing to the Morocco finishers' strike, although the finishers of one factory are alone directly concerned. The manufacturers will take no steps before Friday, when they hold an adjourned meeting. There are indications that the union will call out the tanners and other men. There has been no trouble up to the present time.

Cigarmakers Strike.

PHILADELPHIA, Aug. 19.—Three hundred cigarmakers employed by C. J. Dunn & Company's United States cigar manufactory, on Broad street, struck work yesterday for higher wages. The strikers demand an increase of $1 a 1,000 on what they call the cheaper imitation hand-work grades of goods for which they are now being paid $5.75 per 1,000.

CENTRAL AMERICAN NEWS.

Further Account of the Existing Trouble There Now.

SAN FRANCISCO, Aug. 19.—The Central American mail recently brought letters from George W. Cool, formerly a well known physician of this city, but who has been in Guatemala during the past year. Dr. Cool says a proclamation has been issued that all men who were not ready for military duty would be shot. Nearly all the men who first went to the front have been killed in battles with Salvadorians.

"If Ezeta marches to the city," the letter says, "he will probably sack the town. The Americans are safe for they receive protection from the legation. Every servant, even those on the coffee plantations, have been drafted into the war and there are not enough left to supply food. Provisions bring enormous prices. Business is at a standstill, and the city is under martial law. Twenty Americans and as many Germans and Frenchmen offered their services to Barrillas but they were refused. About 25,000 soldiers have already left the city for the frontier. Men are attracted to public entertainments and are then seized by the police and drafted in the army."

Another Base Ball Rumor.

PHILADELPHIA, Aug. 19.—The Philadelphia Brotherhood club, it is said, are about to buy out the Athletic club of this city. No actual negotiations to this end have yet begun, but it is understood that the Athletic stockholders are willing to sell. The object of the Brotherhood in purchasing the club will be to get the use of the name and to make the base ball situation in this city less complicated. Catcher Robinson and third baseman Lyon will probably join the Brotherhood club in the event of the purchase.

Twelve Buildings Burned.

WENONA, Ill., Aug. 19.—About noon yesterday fire started in the Parker building in the South block and all the buildings except the Shannon—twelve in number—were destroyed, entailing a loss of $30,000; insurance $6,750.

Washington Dispatches

Some Interesting Railroad Statistics.

INTERSTATE COMMERCE REPORT.

Number of Railroads in the United States, Miles of Line and Number of Men Employed—Tonnage of Freight and Number of Passengers Carried—Other National News.

WASHINGTON, Aug. 19.—The statistician of the interstate commerce commission, Mr. Henry C. Adams, has just completed his second annual report to the commission. This report shows that the railway property of the United States is controlled by 1,705 organizations. The number of men employed is 704,743, showing that 459 men are employed for every one hundred miles of line. This shows greater efficiency than is attained on foreign roads.

For example, in England there are 846,426 men employed, which gives 1,748 men for every 100 miles of line. The efficiency of the men employed on American railways is shown by the fact that each engineer has carried what is equivalent to 2,274,435 tons of freight one mile, and 382,862 passengers one mile. The total number of passengers carried by rail in the United States was 422,171,349. The total number of tons of freight carried was 539,639,583; the average haul for each ton of freight was 727.36 miles, showing a ton mileage of 68,727,223,146.

The table showing the equipment of railways is especially interesting. It shows 29,036 locomotives, of which 8,079 are passenger and 15,140 are freight locomotives; 7,706 passenger locomotives and 8,743 freight locomotives are fitted with automatic train brakes. There are 961,119 cars used, of which 25,665 are in the passenger service and 854,031 in the freight service; 23,540 passenger cars and 66,513 freight cars are fitted with automatic train brakes.

The statistics of accidents show that during the year covered by the report 310 passengers have been killed, and 2,146 passengers injured. This shows that one passenger has been killed in every 1,523,133 passengers carried, and one passenger injured in every 220,024 passengers carried. The rate of mortality in England for the year 1888 is one passenger killed for every 6,942,336 carried, and one passenger injured for every 527,577 carried. This discrepancy may, perhaps, be explained by the fact that the number of miles traveled per ticket is in this country much greater than in England, and also by the fact that English railways are much better managed than in this country.

Of employes in the United States 1,972 have been killed, and 20,028 injured during the year. These figures show that one death occurs for every 357 employes, and one injured for every thirty-five employes; or, if a similar statement be made for trainmen, that is to say for firemen, conductors and other trainmen, one death occurs for 117 employes, and one injury for every twelve men employed.

The gross earnings for the year, exclusive of rental of tracks, yards and terminals are $964,816,129, and the operating expenses, exclusive of rentals of tracks, yards and terminals are $844,706,701. This leaves net income from operations of $120,109,428. After deductions are made for fixed charges the final net income for all the roads in the United States was $101,888,736, or $611 per mile of line. Out of this sum dividends have been paid to the amount of $82,110,198, which leaves surplus from operations of the year of $19,278,538, or $126 per mile of line.

Another interesting table in this report shows the amount of bonds which will fall due in each of the years from 1889 to 1939 inclusive. The total amount of stocks is $4,251,190,719, of which $847,740,899 are owned by railway corporations. The total amount of bonds is $4,267,527,339, of which $304,232,502 are owned by railway corporations. The report further shows that the passenger earnings have increased from 30.46 per cent. of total earnings in 1888 to 31.10 per cent. in 1889; while freight earnings have decreased from 67.35 per cent. in 1888 to 66.82 per cent. in 1889.

House and Senate Proceedings.

WASHINGTON, Aug. 19.—In the house yesterday conference report on the bill to reorganize the customs district of Puget sound was agreed to. Senate bills were passed authorizing the Oregon Railroad Extension company to bridge the Columbia river, Oregon, and granting leaves of absence to per diem employes in customs service. The Mississippi election contest of Chalmers vs. Morgan was determined in favor of the sitting member, Morgan, in accordance with the committee report. The house passed the senate bill amending the act for bridging the Mississippi at St. Paul; house bill authorizing a tunnel under the Detroit river at Detroit, and several other bills, and at 4:45 adjourned for lack of a quorum.

In the senate Mr. Quay gave formal notice of his desire to change the rules, but the matter went over under objection by Mr. Hoar and Mr. Edmunds. The general deficiency bill was considered and passed. The tin plate paragraph in the tariff bill was discussed further without action. After transacting minor business the senate at 6 p. m. adjourned.

Silver Purchases.

WASHINGTON, Aug. 19.—Of the 590,000 ounces of silver bullion offered yesterday, the treasury department accepted 540,000 ounces as follows: Fifty thousand ounces at $1.16, 200,000 at $1.12, 40,000 at 1.185, 50,000 at 1.195 200,000 at 1.1975. Since the 13th to the 16th instant inclusive, the local mints purchased 82,177 ounces. The price of silver quoted in London to-day 54 pence, is the highest point reached since 1878.

The President's Birthday.

WASHINGTON, Aug. 19.—Next Wednesday President Harrison will be 57 years of age, and he intends to celebrate the event by spending a few days at Cape May Point. This will be his last trip to the seashore, and it is probable that Mrs. Harrison will spend the month of September at Cresson, Pa.

New Silver Dollars.

WASHINGTON, Aug. 19.—The issue of standard silver dollars from the mints during the week ending Aug. 16, was 625,468. The issue during the corresponding period of last year was 486,734. The shipment of fractional silver coin since Aug. 1 amounts to $435,459.

DOMESTIC TRAGEDY.

A St. Louis Man Murders His Wife and Then Suicides.

ST. LOUIS, Aug. 19.—Shortly before 6 o'clock yesterday morning Edward Hake, aged 29 years, and son of a prominent business man, shot his wife in the left breast as she lay asleep in bed at their boarding house, No. 1614 Pine street. He then sent a bullet into his own breast. Mrs. Hake died at 1 o'clock in the afternoon, and Hake is not expected to live many hours.

For some time past Hake has given evidences of metal aberration. A few weeks ago he stole $4,500 from his father's safe and fled to Kansas City, where he was arrested and the money recovered. Lately he has grown suspicions of his wife's fidelity, and it is supposed that he did the shooting while temporarily insane.

Burglar's Big Haul.

ST. LOUIS, Aug. 19.—Yesterday morning a burglar made a big haul at the residence of Mrs. Rothschild, No. 507 South Broadway, getting $1,100 worth of property in diamonds and money. Mrs. Rothschild says that but one person other than herself knew the combination of the safe wherein the diamonds and money were placed and that person was one of her lodgers, named Charles Ballou. Ballou has disappeared.

The Robbers Still at Large.

SEDALIA, Mo., Aug. 19.—Very little has developed in the Otterville train robbery case. Sheriff Smith, of this city, says that about one hundred heavily armed men are in pursuit. The man arrested at Madison says he can prove an alibi upon his examination. It is intimated that the wrong express car was opened, the car that goes to Denver with matter for transfer to the Wells-Fargo company having been overlooked by the robbers.

Saw the Robber Going Out.

WAUKESHA, Wis., Aug. 19.—A robber entered a guest's room at the Grand Avenue hotel Saturday night and secured diamonds and other valuables to the amount of $1,000. The occupant of the room awoke just in time to see the robber going out of the window. A large sum of money rolled up in a piece of newspaper was not discovered by the thief, although the package was handled by him.

PRICES CURRENT.

Review of the Stock, Money and Cattle Markets for Aug. 18.

Money on call loaned at 6@8 per cent.

Exchange quiet; posted rates, 484½@488½; actual rates, 483¼@483¾ for sixty days.

Buckeye State News.

Items of Interest from Various Places.

LIMA OIL EXCHANGE OPENED.

It is Looked Upon as the Forerunner of Increased Business and a General Boom in the Products of the Lima Oil Fields. Other Ohio News Items.

LIMA, O., Aug. 19.—Yesterday the Lima Oil exchange was formally opened in its handsome quarters in the Cincinnati block. The occasion marks the beginning of an important era in the history of this city. At no time since the early discovery and development of oil in and about Lima has there been so much excitement, and the present movement is looked upon as a forerunner of increased business and a general boom. A rapid increase is also expected in the price of the product.

The meeting was called to order by Vice President John O'Connor, and Mayor Longworth delivered the formal opening address. Five minute speeches on the appended topics were then made by the following named gentlemen: "Exchanges," S. S. Wheeler; "Their Benefit," Judge C. M. Hughes; "Oil and Gas," Dr. S. A. Baxter; "The Producers," W. R. Mehaffey; "Certificates," T. J. McLaughlin; "The Future of Lima Oil," George W. Barnes; "The Relation of the Banks to the Exchanges," C. M. Hughes, jr.; "Benefit to the Farmers," Prosecuting Attorney I. S. Motter; "The Great Ohio Oil Field," James L. Apple; "Futures," G. C. Scott.

All the arrangements for the work had been previously completed, and after opening exercises the market was opened and a few sales followed. A number of prominent eastern dealers were present and became members. The names of a number of others who could not be present, but who had taken stock, were read. Altogether the Lima oil exchange began business under the most auspicious circumstances.

Injured at a Fire.

IRONTON, O., Aug. 19.—Fire was discovered at Weller's restaurant, on Railroad street, at 1 o'clock yesterday morning. It is supposed the house was set on fire, as the blaze was seen on the outside in a small passage way. It is claimed that coal oil was discovered on the building. Deputy Marshal Clark climbed up the awning to awaken the inmates when part of the support gave way, and he fell to the pavement and broke his arm in two places.

Nail Factory and Mill Consumed.

STEUBENVILLE, O., Aug. 19.—One nail factory, the mill and two small outbuildings, together with their contents, consisting of eighty-two nail machines, battery boilers, and all other fixtures and tools of the Jefferson Iron Works company, were destroyed by fire yesterday. Loss estimated at over $100,000; insurance, $63,000.

Shot by a Scissors Grinder.

DELAWARE, O., Aug. 19.—Martin Fleenan, of Prospect, while at Delaware depot, was shot by an Italian scissors grinder without provocation. An angry mob tried to take the murderer from the officers and lynch him, but the Italian was safely jailed.

Church Struck by Lightning.

SENECAVILLE, O., Aug. 19.—During a storm Sunday night the Methodist Episcopal church was struck by lightning, and George W. Shaw and John Davis were killed, and Leander Moorehead and Henry Secrest badly shocked.

Escaped Convict Captured.

SIDNEY, O., Aug. 19.— —— Long, an escaped convict from Stillwater, Minn., was captured on the train here after a desperate struggle. He was serving fifteen years for highway robbery.

Sued for Slander.

MT. GILEAD, O., Aug. 19.—Mrs. Lizzie Cruz, a society lady of this place, has sued Jacob Mayer, a well known grocer for $10,000 for alleged slander.

A WILD NEGRO AMUCK

Sensational Fighting on Douglass Avenue, Racine, Wisconsin.

RACINE, Wis., Aug. 19.—Charles Cole, a colored man, who recently came here from the south, run amuck on Douglass avenue Sunday afternoon, and as a result one man is lying in a dangerous conditon and two others badly hurt. Cole made his appearance on the avenue armed with a razor, a big stone and followed by an ugly bulldog. He was evidently crazed by liquor.

A running fight took place between the officers and the negro and an officer was knocked down. He used his club freely and smashed the negro's face and nose. By this time the chief of police and city marshal arrived on the scene and the wild darkey was landed in jail, where he fought like a demon and made a desperate attempt to kill Officer Harms with a spittoon. Smith, the man who was struck and pounded with a rock, is in a bad shape.

Spectators say that had it not been for the interference of Mr. Shield, Smith would have been pounded to death. Schneider's injuries are not dangerous.

Purse Medal Design.

PROVIDENCE, R. I., Aug. 19.—The design of William Clark Noble, of New York, has been accepted by the Burns' monument committee. It represents the poet seated, with books and papers around him.

Election in Alabama.

MONTGOMERY, Ala., Aug. 19.—Jones, Democrat, is elected governor by a very large majority over Long, Republican.

PARLIAMENT PROROGUED.

Queen Victoria's Speech to England's Lawmakers—Other Foreign News.

LONDON, Aug. 19.—Parliament was prorogued yesterday. The queen's speech was read by the lord chancellor. It says that the relations of her majesty's government with the foreign powers continue to be pacific. Friendly attention had been called to the inconvenience which might arise from a possible conflict over territorial claims in Africa.

Therefore the queen's government was negotiating with the powers mainly concerned with the purpose of defining the boundaries within which the action of the respective governments should be defined. The arrangement with Germany, closing the most difficult of the questions, was complete, and her majesty's ministers laid before parliament the history of those negotiations which had resulted in the cession of Heligoland to Germany.

The speech then announces the arrangements with France, whereby the French Algerian territory is separated from that of the British Niger company. The agreement for a British protectorate over Zanzibar and the placing of Madagascar under the protection of the French is also explained.

With regard to the Behring sea complications her majesty informs parliament that she offered to submit them to arbitration for settlement. The speech states that the case of the Newfoundland and French fisheries dispute is one which is occupying the anxious attention of the government.

Emperor William's Visit to the Czar.

ST. PETERSBURG, Aug. 19.—Yesterday the festival of the Patron Saint of Prevbrashensky regiment was celebrated at Narva. The czar and czarina, Emperor William and the others of the imperial parties attended divine services in the camp of the regiment and afterward in church. Later the kaiser visited the town hall, where he received an address of welcome. Before the military review the emperor presented the czar and czarina with a splendid carriage. At the luncheon, which took place later, the czar toasted the kaiser and Emperor Francis Joseph of Austria. Emperor William, responding in Russian, proposed the health of the czar.

Experiment in Railroad Building.

BERLIN, Aug. 19.—The German government has ordered a railroad battalion to make the experiment of laying an army line of railway between Speerenburg and Insterburg, East Prussia. It is expected that the entire work will be finished within four days. It is intended that other similar experiments shall be made, the lines in each case to remain permanently as portions of the general railway system, though the later ones will be constructed in more strategetic localities.

A Rich Farmer's Double Crime.

PESTH, Aug. 19.—Giza Goldka, a rich farmer of Menegai, murdered his wife because she had gone to a dance, contrary to his wishes. After the crime he fled to the depths of the forest and attempted to hang himself, but the rope broke and the man regained consciousness after several hours insensibility. On hearing the church bells toll for the funeral of his victim he returned to his home, broke in the door of the death chamber, seized a loaded rifle and blew his head off.

Many Prominent Clergy Present.

LONDON, Aug. 19.—The coffin containing the body of Cardinal Newman was placed upon a catafalque in front of the altar in the oratory at Edgbaston yesterday. The priests, assisted by Bishops Ilsley, Clifford, O'Reilly, Hedley and Bagshaw, sang a dirge. The Duke of Norfolk, Lord Chief Justice Coleridge and seventy members of the clergy were present.

Latest from Buenos Ayres.

LONDON, Aug. 19.—The Times' Buenos Ayres special cable dispatch says: Minister Lopez declares that he will issue no notes based on the security of land. Lopez hopes within four months to see the moral and economical position became normal, and within a year he expects the entire finances of the country to be established on a sound working basis.

Storm Damages.

PARIS, Aug. 19.—A storm last night ravaged the department of the Aube. It was of unusual violence, sweeping away woods, vines, crops and everything which lay in its track. The losses are estimated at $400,000.

Another Start for the North Pole.

PARIS, Aug. 19.—Besancon, the French aeronaut, and Hermite, the astronomer, propose to make a balloon expedition to the north pole, starting from Spitzbergen.

Twelve Monks Killed at a Fire.

BELGRADE, Aug. 19.—A fire occurred at the Mt. Athos monastery last night, which completely gutted several of the buildings. Twelve monks were killed.

The Pope's Rescript.

ROME, Aug. 19.—The pope has prepared a rescript for the international social science congress, which will be held in Belgium in September.

Jumped in the Harlem.

NEW YORK, Aug. 19.—Henry C. Farrington, aged 43, a canvasser for Falk, the photographer, committed suicide yesterday by jumping from the Washington bridge into the Harlem river. He had been apparently in good health and circumstances and the cause for the suicide is not known. He leaves a widow and two children.

Shot by Foot-Pads.

SAN FRANCISCO, Aug. 19.—Samuel Jacobson was shot and probably fatally wounded by two foot-pads while about to enter his house early yesterday morning. Mr. Jacobson is a prominent business man here. The men escaped.

ROYAL

BAKING POWDER

Absolutely Pure.

A cream of tartar baking powder. Highest of all in leavening strength. —U. S. Government report August 17, 1889.

Fire in a Flat House.

NEW YORK, Aug. 19.—A fire yesterday in the big double flat on the corner of Thirty-second street and Fortieth avenue caused a loss to the tenants and on the building of about $10,000. All of the occupants escaped by the stairway except Mr. and Mrs. E. G. Stone, of the "Paul Kauvar," company, who were rescued from a window by the firemen. The loss is covered by insurance.

Built Fire With Kerosene Oil.

FALL RIVER, Mass., Aug. 19.—Amanda Lamarenx, aged 16, was frightfully burned yesterday. She was pouring kerosene oil into a stove, when the flames reached the can and caused an explosion. The girl's dress became ignited, and her mother, in an endeavor to quench the flames, had her hands and face badly injured. Amanda, it is thought, will die.

Coal Breaker Burned.

SCRANTON, Pa., Aug. 19.—The Delaware, Lackawanna and Western company's central breaker was burned yesterday evening. Loss $100,000. About 500 men and boys are thrown out of employment. The men and mules in the mine at the time the fire began were rescued by means of the air shaft and slope.

Murdering a Negro Preacher.

AUGUSTA, Ga., Aug. 19. — Edmund Morrison, the negro who shot and killed Henr. Hunter at Carter's Camp, on the Carolina and Northern railroad, was brought here last night and lodged in jail to protect him from a mob which would have lynched him. Hunter's friends would have taken the murderer from the sheriff and hanged him if they had had an opportunity.

Burned to Death.

HAZLETON, Pa., Aug. 19.—The house of Nicholas Brandon, near here, was discovered to be on fire Sunday. When the flames were extinguished Brandon's charred remains were discovered in the ruins. It is believed the unfortunate was intoxicated and upset a lamp, causing the fire.

You Take No Risk

In buying Hood's Sarsaparilla, for it is everywhere recognized as the standard building-up medicine and blood purifier. It has won its way to the front by its own intrinsic merit, and has the largest sale of any preparation of its kind. Any honest druggist will confirm this statement. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Be sure to get Hood's.

ALAS!

How wretched is the man who has fallen a victim to Biliousness, Indigestion, Sick Headache, or diseased Liver, with all the horrible attendants. Look upon the picture. Poor man, being tired of dragging out a miserable existence, he is the picture of despondency; altogether, he is rather a forlorn specimen. Do we pity him? Of course; but at the same time feel assured that in a measure he is to blame for the bad state into which he has fallen. A sure, safe, speedy and easy cure can be found in Simmons Liver Regulator—Nature's own remedy. No mercury or deleterious drugs, not unpleasant to the taste, and always reliable—just such a remedy as you can pin your faith to without a shadow of disappointment. Read the testimonial, don't take our word for it:

"I have been subject to severe spells of Congestion of the Liver, and have been in the habit of taking from 15 to 20 grains of calomel, which generally laid me up for three or four days. Lately I have been taking Simmons Liver Regulator which gave me relief, without any interruption to business." J. HOGG, Middleport, Ohio.

TUESDAY, - - - AUGUST 19.

On the recommendation of the city council Mayor Dudley has called a meeting to be held at the City Hall at eight o'clock tonight, for the purpose seeing what can be done in the railway matter that is of such great interest at the present moment. This official action brings the matter about in a happy way, and the authorities are to be commended for the step. Let their move be shown due appreciation by a rousing meeting tonight.

The matter is one that deeply interests Marion. The purchase of the C. and A. by the Erie means either a loss or an increase to our industrial forces. The force of railroad men here will be largely diminished or handsomely increased. Which shall it be?

With the advantages of the natural junction, of large and valuable yards, to which may be added the inducements of shops and further grounds, Marion can make the Erie an attractive bid for its division point and shops. This is what the meeting is for, to see if citizens are ready to grasp a golden opportunity and compete for the great prize of increased prosperity. There is a great deal at stake. Every citizen and especially every property holder is interested in the matter. There should be a large and enthusiastic attendance.

Marion's prosperity will be all the more gratifying if a new impetus is added. At any rate no industrial loss must be allowed. Increased railroad forces and the Erie shops would be a crowning effort to a decade of exceptional growth. It is believed to be possible to obtain them. It is well worth a vigorous effort. At any rate let us have a liberal industrial fund, then if it wont serve the purpose of securing the Erie division and shops, it can be used in putting some other good new industry on the high road to prosperity. There are the means here, and there ought to be the pride and liberality and enthusiasm to take a sweeping step forward. Attend the meeting tonight and give matters a good start.

The Adventists who are departing today have certainly conducted a very orderly camp meeting here, and they depart with the respect of the people of Marion, whether they have gained any new followers or not. The meeting was not one of missionary effort, however, and the almost total absence of doctrinal sermons has been rather noticeable.

The State Journal's paragraph to the effect that Mr. Young would decline a congressional nomination was news to that gentlemen himself. It is admitted that the gerrymander wasn't made especially for Mr. Young, but he is in the race, away in it.

The street signs are to go up at once and free mail delivery will be here almost before our people are aware of it. There has been no fuss over this matter, like at Kenton and other places, but there has been business that will soon bear fruit.

Attend the public meeting tonight. It is one that pertains to Marion's prosperity. Let it be a hummer to start with.

There is much satisfaction over the refreshing rains, even if they have been tardy. They are not so late but they may yet be of much good.

To Whom It May Concern.

At a meeting of Marion County Farmers' Alliance the committee appointed to recommend some plan of selling grain, reported as follows:

Resolved, that in the unsatisfactory methods of dealing in grain and in order to avoid misunderstanding between seller and buyer, the Farmers' Alliance recommend the following rules:

1st. That 60 pounds be considered a bushel of wheat, whatever the quality may be.

2d. Wheat testing 58 pounds to the legal bushel to be considered No. 2 wheat and to be paid the market price of No. 2 wheat (when in merchantable order).

3d. 1½ cents per bushel to be deducted for every pound falling short of 58 pounds per bushel.

4th. 2 cents per bushel to be added for every pound exceeding 58 pounds per bushel.

5th. The testing to be done with a a legal bushel or half bushel measure.

Signed, E. Conley,
A. H. Howser,
Committee.

The report of the committee was unanimously adopted and ordered published.

E. Hoch, President pro tem
G. E. Lawrence, Secretary.

A DULL SESSION

The City Council Meets, Discusses, But Does Not Transact Much Business.

The mayor and clerk and councilmen Roberts, Leffler, Blake, Sauter, Isslieb and Porch were present at the call of the roll of the city council at the adjourned session Monday evening. The reading of the minutes were dispensed with, except that portion chronicling the action wherein the deputy marshals were provided for at previous meeting. Roberts objected, and was joined by Blake, to this portion of the proceedings going on record, on the ground that the resolution was illegal, being passed by only five members of the council. The city solicitor was absent and the matter was dropped until he was present to expound the law.

The street and alley committee reported favorably upon a number of petitions for new sidewalks, the reports were accepted, and the matter laid over until it could be disposed of by ordinance.

The subject of city engineer was given a little desultory discussion, which resulted in Isslieb making a motion to declare that office vacant. The motion found a second from Blake, but on a vote was lost.

The grass and weed nuisance occupied considerable time in an attempt to find out what the ordinance previously passed furnished in the way of provision for forcing citizens to comply with the law. The result reached was to the effect that the mayor should order the street commissioner to enforce the law on the matter.

A motion was made by Isslieb that council instruct the mayor to publish a call for a citizens' meeting tonight, to discuss the probable removal of the C. and A. yards from this city, and if possible discover what means can be found to induce the Erie Co. to keep the yards here. The motion carried.

The committee on accounts reported a number of bills, all of which were ordered paid.

Chairman Leffler, of the sewer committee, reported the sewerage construction to be getting on satisfactory. On motion the committee was given power to act in the matter of restoring drainage to property, where it had been disturbed by the construction. A motion was also made and carried, providing for the furnishing of a conveyance of the sewer engineer to and from his labor.

The petition of Fred Isslieb and others for water-works on Cherry street was referred to the water-works committee.

A motion was passed authorizing the chief of the fire department to grant the request of citizens, allowing the use of hose to fill private cisterns.

The committee on street lighting and gas reported in favor of iron street signs, two for each cross street. A resolution was passed providing for the purchase of 200 signs, more or less, at 65 cents each, to be placed on opposite corners. The signs are to be furnished by Otto Blaich, and are the same as used at Columbus and were first adopted by that city.

A resolution was passed providing for the purchase of 500 yards of screened crushed stone, at a price not to exceed 63½ cents per cubic yard.

The mayor presented a dozen or more names of candidates for watchman to be voted for, to take the place of the Center street watchman who resigned. After considerable balloting, with some incident amusement, E. L. VanScoyoc was elected to that position.

The mayor was instructed to correspond with the C. H. V. and T. officials in regard to placing a watchman at the Green Camp pike crossing of their road.

Council adjourned to the next regular meeting, Sept. 1.

OBITUARY.

HOLVERSTOTT — Mrs. Adelia Holverstott, nee Kilbourn, daughter of the late Rev. Marcus and Saran Wyatt Kilbourn, was born in Delaware county, Ohio, April 30, 1835, died Aug. 3, aged 55 years, 3 months and 3 days.

Sister Holverstott enjoyed the advantages of a liberal education, being at one time a student at Oberlin college. Leaving the college she engaged in teaching, in which profession she was eminently successful. On October 30th, 1854, she was united in marriage to her now bereaved husband, P. W. Holverstott. She was permitted in the providence of God to walk with Him in this sacred relation for 35 years, 9 months and 3 days. These were years of peace, prosperity and happiness, not without their responsibilities, trials and burdens, but in all these she proved herself to be a wise, faithful and pure companion. To them were born five children, two of whom Christ called to His own bosom in early childhood, three are still living. Clarence K., the agent of the Erie at Richwood; Emma, the wife of William Kennedy, a prosperous farmer near Big Island; and Alice, the wife of Mr. Frank Smith who still remains at home with their sorrow stricken father to comfort and cheer him in his sorrow and bereavement.

Brother and Sister Holverstott, through their industry and wise management under the blessings of God, built up and established one of the most beautiful rural homes in Marion county. Sister Holverstott was a noble minded woman, wise, conscientious and charitable in all her life work. It was her pleasure to do good, relieve the suffering, cheer the disconsolate, comfort the bereaved and scatter sunshine and inspire hope wherever she mingled in society. She was a wise and prudent mother, a good neighbor, a true christian and a willing worker for the Master. She was a warm friend of education, encouraged her children to seek its benefits, and when her afflictions came upon her, she was planning for the education of her grandchildren. In the winter of '70 and '71 she with her husband united with the Claridon Free Baptist church under the ministry of the late Rev. S. D. Bates, D.D. She remained a member of this church until the Master was pleased to call her to a peaceful and eternal rest with Him. She leaves in the battles of life a beloved companion, three confiding and loving children, and a host of friends to mourn her absence. But she has gone to join a multitude of precious redeemed ones in our Father's house where there are many mansions and where all are clothed in that most glorious body like unto Christ.

Beautiful toiler thy work all done.
Beautiful soul into glory gone.
Beautiful life with its crown now won.
God giveth thee rest
Rest from all sorrow, and watching and fears.
Rest from all possible sighing and tears.
Rest through God's endless wonderful years.
At home with the blest.

Funeral services at her home conducted by Rev. B. F. Zell, of Springfield, Ohio, assisted by Revs. Hale and Cranston.

B. F. Zell.

Notice to Red Men.

All members of Sandusky Tribe, No. 66, Imp. O. R. M. are requested to meet at their wigwam at 7 30 sharp, tonight, to make arrangements for the funeral of Brother Fred Wetzel, which will occur Wednesday at 2 p. m.

By order of Sachem.

—A. S. Finch is at Ashley, Delaware county, where he is building a large new church. Mr. Finch has the brick contract.

—F. B. Loomis, one of Fostoria's prominent insurance men, was looking over the city today in company with M. Waddel.

—Members of the Lawn Tennis Club are requested to meet at the parlors of Hotel Marion, Thursday evening at 7:30 o'clock. Business of importance.

—Miss Gertie Shaeffer, who has been the guest of Miss Ethel Clark, on north East street, returned Monday to her home in Meadville, Pa.

—President Len Reber was at Upper Sandusky today on business for the Agricultural society. Mr. Reber says the fair this year is to be the greatest exhibition of them all.

A Drunken Man Throws His Wife Down Stairs.

Montreal, Ont., Aug. 19.—A drunken machinist named Smith threw his wife down stairs at their home last night. The woman was dead when medical aid arrived. Smith was arrested.

Ball League to Dissolve.

Baltimore, Aug. 18.—The Atlantic League will dissolve Aug. 27. The Baltimores enter the American Association in place of the Brooklyn League.

Ayer's Hair Vigor restores color and vitality to weak and gray hair. Through its healing and cleansing qualities, it prevents the accumulation of dandruff and cures all scalp diseases. The best hair dressing ever made, and by far the most economical.

His Great Failing.

"Yes, every time Blowhard gets in a fight he exerts himself too much."

"How's that?"

"Running."—New York World.

Bradfield's Female Regulator

Should be used by the young woman, she who suffers from any disorder peculiar to her sex, and at change of life is a powerful tonic; benefits all who use it. Write Bradfield Reg. Co., Atlanta, Ga., for particulars. Sold by H. C. Hoberman & Co.

Diphtheria.

"I am living in a neighborhood surrounded with Diphtheria and was attacked with Ulcerated Sore Throat. I at once commenced using Darbys Prophylactic Fluid, diluted about one half, as a gargle, when great clots of hard membrane and mucous came from my throat, and the attack passed off. I am satisfied of its efficacy as a preventive and cure for Diphtheria."—W. P. Woodward, Frankford, Pa.

A Child Killed.

Another child killed by the use of opiates given in the form of soothing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Dr. Acker's Baby Soother. It contains no opium or morphine. Sold by H. C. Hoberman & Co. and W. B. Foye.

The longer the time that elapses after danger, the greater the feeling of security and the greater the danger that the same disaster will happen again.

Somehow the men who start out with the intention of doing their worst, never make such failures of their undertakings as those who start out to do their best.

It is so easy to think of a mean name to call a man when he has called you one; so hard to think of something nice to say to him when he has paid you a compliment.—Atchison Globe.

Ayer's Sarsaparilla, by purifying and enriching the blood, improves the appetite, aids the assimilative process, strengthens the nerves, and invigorates the system. It is, therefore, the best and most thoroughly reliable alterative that can be found for old and young.

WHAT IS

SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. Carlile, Nauright, N. J.

N. B. Be sure to get only

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Indigestion

Is not only a distressing complaint, of itself, but, by causing the blood to become depraved and the system enfeebled, is the parent of innumerable maladies. That **Ayer's Sarsaparilla** is the best cure for Indigestion, even when complicated with Liver Complaint, is proved by the following testimony from Mrs. Joseph Lake, of Brockway Centre, Mich.:—

"Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony, was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I commenced the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an improvement in my condition. My appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life."

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

BROKEN OUT!

How often do we see this on the faces of children and, alas, of people who otherwise are healthy? What causes it? Bad Blood. The thought is terrible; the trouble is worse. No ordinary help can remove it. It requires something unusual. Do not take cheap sarsaparillas or blood purifiers. You must have something that has proven its power in both Europe and America. General Wheatcroft Nelson, of London, says: "My experience in the English army, as well as in America, convinces me that *nothing* so thoroughly purifies the blood, or adds to the health, vigor and life, as Dr. Acker's English Blood Elixir."

This grand Elixir is sold by druggists in all parts of America. It is a good, pure, honest medicine. Try it to-day.

For Sale by HOBERMAN & CO. and W B. FOYE.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

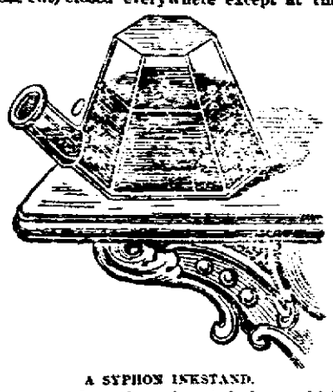
SCIENCE AND PROGRESS.

POPULAR SCIENTIFIC RECREATION AND USEFUL KNOWLEDGE.

A Simple but Very Interesting Illustration of the Pressure of the Atmosphere and of the Elasticity of Air—Experiments with a Syphon Inkstand.

The syphon inkstand, which prevents ink from too rapid evaporation, is selected by Ganot in his work on natural philosophy as an interesting illustration of the pressure of the atmosphere and of the elasticity of air. It consists of a glass vessel of the shape of a truncated pyramid (see cut) closed everywhere except at the



A SYPHON INKSTAND.

bottom, where there is a tubulure, which is always open. The inkstand is partially full of ink, while there is air at the top.

The level of the ink inside being higher than in the tubulure, the elastic force of the air inside is a little less than the pressure of the atmosphere on the ink in the tubulure. As the ink there is used its level sinks, and is finally lower than the point o. At this moment a bubble of air passes into the interior, and the elastic force being thereby increased, the level of the ink descends in the inside and rises in the tubulure. This goes on until the internal level is at the point o. More ink must then be added, which is effected by pouring it into the tubulure, care being taken to incline the inkstand in the opposite direction. The fountains in bird cages are on a similar principle.

Soap Bath for Cleaning Jewelry.

An excellent bath for cleaning watches, jewelry, etc., according to The Union Horlogere, is made with soap, ninety-two grains; ammonia liquor, 1,157 grains; water, one quart. Shave the soap and melt it in the water. Then add the ammonia. There are still a goodly number of watchmakers who prefer the good old way of cleaning a watch or a clock movement with soap and water and a good brush, and they will find the above given formula entirely to their satisfaction. Pour the bath into a receptacle containing the parts to be cleaned, but take care that they are entirely submerged, as without this precaution the parts exposed to the air would soon be covered with an oxidation which can be removed only with difficulty.

The pieces if well immersed may for all that be left in the bath for a whole day without any danger whatever: steel pieces are not whatever attacked, but generally speaking from five to six minutes are amply sufficient to cleanse them thoroughly. The bath may be used for a long time, and is thrown away only when it is too dirty or when it has lost its force. When not in use keep it in a well stoppered bottle.

Dry the articles in sawdust, to which add a little Spanish white. A slight brushing will then bring out its pristine polish. This bath is largely preferable to the ordinary ways of cleaning with benzine, cyanide, alcohol and chalks, etc.

To reiterate, keep the bottle with the bath well corked to avoid the evaporation of the ammonia, which, should it occur, would remove from the bath its principal cleaning virtue.

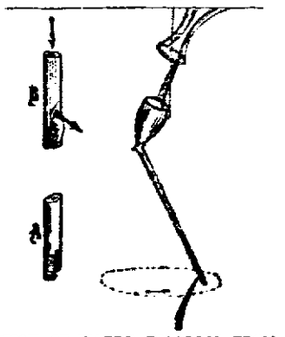
A Boon to Smokers.

Many have been the attempts to devise improvements in pipes and cigar holders by which the unpleasant sensation on the tip of the tongue could be obviated and the saliva prevented from entering the mouthpiece, but as yet only indifferent success has been obtained. Mr. Arthur E. Gilbert, an English electrical engineer, claims to have solved the problem by his improvement in and relating to tobacco pipes and cigar and cigarette holders. This purpose is effected by providing a hollow ball with a short tubular or slotted stem attached to it, which is inserted into the usual orifice in the mouthpiece of the pipe or cigar or cigarette holder, so that the smoke shall pass out through the tube or slotted stem and upper slotted part of the ball, and the tongue shall rub against the ball in the mouth of the orifice.

Reaction from a Stream of Water.

An exceedingly simple and effective illustration of the reaction of a stream of water escaping from an aperture—the principle upon which the action of all turbine water wheels depends—is shown in the cut. The only apparatus necessary is a clay tobacco pipe and a little sealing wax. Grind or scrape off the end of the stem, as shown at A, and cover it with a bit of sealing wax, as in B, so that the aperture at the end is charged into one at the side.

Now suspend the pipe by a long thread attached to the bowl by another piece of wax, and fill the bowl with water. As it



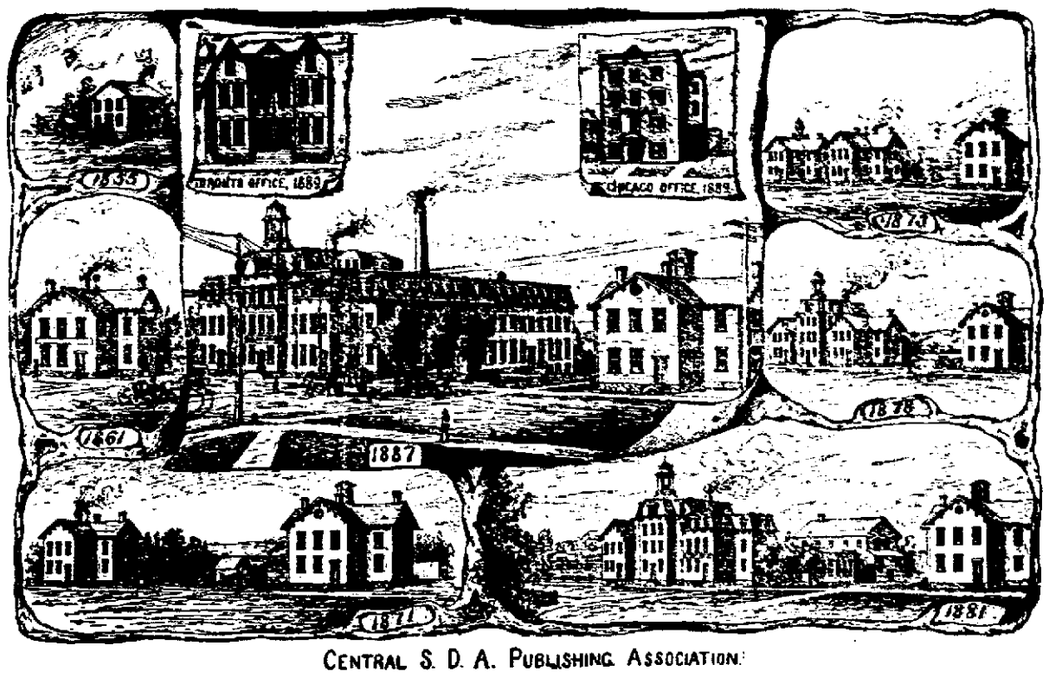
REACTION OF WATER ESCAPING FROM AN APERTURE.

escapes from the opening in the side at the end of the stem, the pressure of the water on the opposite side will cause the pipe to move backward, away from the stream. After a short time the pipe will revolve quite rapidly in a more or less perfect circle. The illustration to this article originally appeared in Nature, and was recently described by Popular Science News.

Hair that is brushed regularly night and morning, if only for a few minutes at a time, will require less frequent washing, and meanwhile will be clean and glossy. Too much washing renders the hair hard and dry.

SEVENTH-DAY ADVENTIST'S INSTITUTIONS.

The Central Publishing House and Its Immense Publications—The Battle Creek College and the Mt. Vernon Sanitarium—Brief References to Each of Them.



CENTRAL S. D. A. PUBLISHING ASSOCIATION.

REVIEW AND HERALD OFFICE AND THE CENTRAL PUBLISHING HOUSE.

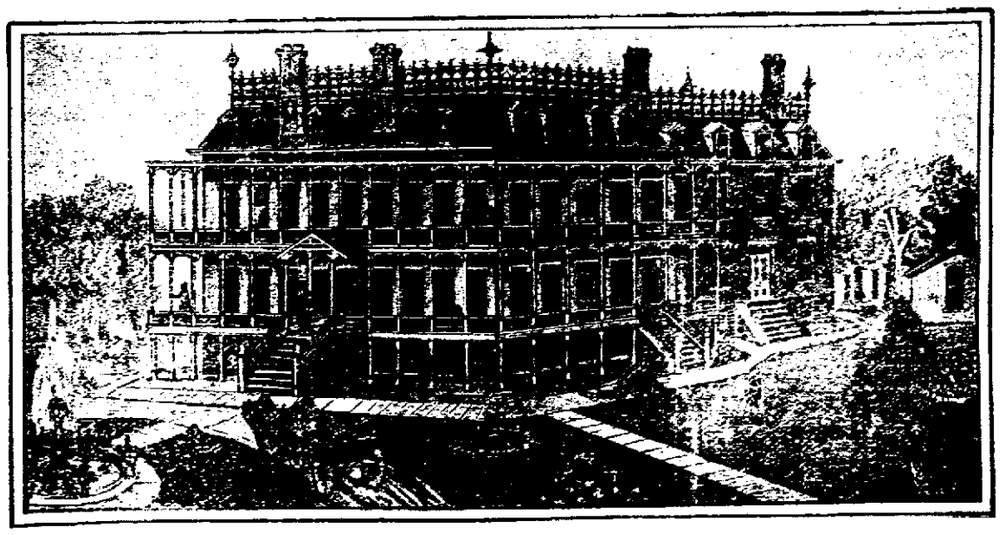
Among various other large, enterprising institutions, controlled and operated by the Seventh-Day Adventists, is their Central Publishing House, located in the city of Battle Creek, Mich. From small and humble beginnings, this institution has grown to be one of no inconsiderable size. The publication of the Advent Review and Sabbath Herald was begun in 1850, at Paris, Me., for the purpose of disseminating the doctrines indicated by its title. In 1851, the office of publication was established at Saratoga Springs, N. Y., a little later removed to Rochester, N.Y., and in 1855, to Battle Creek, Mich. The first building erected was a wooden structure, 22x30 feet, shown in the upper left-hand corner of the accompaning illustration. The other buildings, with the dates underneath, represent the principle stages of growth since that time. The main building shown in the center of the cut, is a three story building above basement, having a street frontage of 120x185 feet. It is supplied by two steam elevators, and is equipped for doing first-class book and job printing, book-binding, stereotyping and electrotyping, on an extensive scale, having twelve steam presses (including a large $6000 stop-cylinder recently purchased) several hand presses, steam and lever paper-cutters, machines for folding, stitching, embossing and ruling, besides a full equipment of machinery in the foundry, an electric dynamo, etc, etc., all of which are operated by a 100-horse-power engine. Another large building on the opposite side of the street, 60x100 feet, is used for offices, counting room, and packing and shipping department, being connected with the main building by a telephone system and speaking tubes. Both buildings are heated by steam, lighted by electricity, and have an aggregate floor space of 52,000 square feet—more than an acre—making altogether the largest publishing house in the state of Michigan. Over 200 persons are employed in the institution a greater part of the time. The presses are often kept running night and day. There are issued from this office two weeklies, three semi-monthlies, and four monthly journals, with an aggregate circulation of over 35,000, besides tons of books, pamphlets and tracts. During the year 1889, the book sales alone averaged $10,000 per month. According to the last annual report there were printed a grand total of 103,939,435 pages, and the wholesale value of the subscription books sold was $114,412.25. Besides all this, the job work done during the year amounted to over $32,000.

This is simply one of their publishing houses. At Oakland, Cal., they have another nearly as large, in which are employed about 150 hands, being the largest publishing house west of the Rocky mountains. Other publishing houses of the denomination are located in England, Switzerland, Norway, Australia, and elsewhere. While the denomination numbers not quite 30,000 church members, and consequently cannot be very thickly scattered over the world, they appear to be thoroughly imbued with their message and to be putting forth commendable zeal in dissemnating it, especially in the way of circulating literature.

BATTLE CREEK COLLEGE.

BATTLE CREEK COLLEGE.

This college has been the pioneer school of the Seventh-day Adventists denomination. It was founded in 1874. A large number of students have received their training at this institution, its doors being open to all of good moral character, of both sexes, who are in sympathy with good discipline and faithful work. Between five and six hundred students attended here last year. The courses of instruction are similar to those usually found in other institutions of learning of like grade. The main difference in the curriculum of studies is, that the study of the English Bible is introduced as regular work, for a period of two years, in all the courses. The college is supplied with a good library, museum, gymnasium and philosophical and chemical apparatus. Two large dormitories, one for ladies and one for gentlemen, form a part of the college plant. The founders of the institution aimed to establish a school where not only thorough mental training could be given, but where moral and religious influences should be made prominent, and physical laws taught and obeyed. It has been the aim of the trustees to reduce the expenses of the students to the very lowest figures. For a year of ten months the rates are as follows: For boarding-pupils, including board, use of furnished rooms, light, heat, washing, bath-rooms and tution in any of the regular courses, and use of the library and reading-room, $140, one-half payable in September and the other in February.



MOUNT VERNON SANITARIUM.

MT. VERNON SANITARIUM.

This institution is located at Mt. Vernon, Ohio. It was founded in 1885, from philanthropic motives and not for profit, and is run on the same general plan as the great Medical and Surgical Sanitarium at Battle Creek, Mich. Its family at present numbers about sixty-five. While most of its patrons visit it to regain their health, many go for the purpose of learning how to preserve their health. A training school for nurses is successfully conducted, and the true science of health, temperance and scientific and hygienic cookery, are taught in a practical manner. A new gymnasium and surgical ward is nearly completed.

STRUCK THEIR TENTS

THE SEVENTH DAY ADVENTIST CAMP MEETING CLOSED.

The Last Day's Proceedings, and the Farewell Meeting—How This People Use Printer's Ink—One of the Most Enjoyable State Meetings Known in the History of the Church.

The camp meeting which has been in progress at this city for over two weeks, has finally closed. This morning they had their farewell parting, and said good-bye for another year. All seemed to have enjoyed the meeting, and to regard it as a success. Certainly a pleasanter location and more delightful weather could not have been asked. Everything passed off without a jar. The citizens contributed liberally toward the expenses of the meeting, in all nearly $100, for which the campers in their closing meeting passed a resolution extending to them a vote of thanks.

One cannot help but notice the strong bond of sympathy and love that exists among this people. They appear like members of one common family. Their distinctive views, no doubt, have a tendency to unite them together in brotherly love and esteem, respecting each other for having the courage to espouse unpopular doctrines. They seem to be made up somewhat of the class James Russell Lowell speaks of in the stanza:

"I honor the man who is ready to sink
Half his present repute for the freedom to think,
And when he has thought, be his cause strong or weak,
Will risk 'tother half for the freedom to speak,
Caring not for what vengance the mob has in store,
Let that mob be the upper ten thousand or lower."

The donations of the Sabbath school Saturday, amounted to $46.46. Two baptisms occurred Sunday and Monday, at which eighteen were baptized. The last session of the conference met at 9 o'clock Monday a. m., considering, principally, recommendations for aggressive work to be carried on in Cincinnati, Cleveland, Columbus and Toledo. A health and temperance meeting, conducted by Dr. Hare, was held at 10:30. At 11:30 Elder Durland spoke, after which G. A. Irwin was ordained to the ministry, Elder Jones giving the charge. In the afternoon Elder Jones gave his farewell discourse on how to conquer self and keep from sinning. Services were again held in the evening, after which the campers began to take the first trains homeward bound.

TWO LEADING SHOWS OF AMERICA.

A Crowning Managerial Triumph which Overshadows Competiton.

When the Sells Brothers show, about eighteen years ago, had its genesis, there was nothing to indicate that it was in time to become the largest, the most attractive and in all respects the best zoological, hippodromatic and equestrian organization in the world. The associated brothers—there were four of them—had but limited experience in catering to popular favor, and their exhibition as at first organized was crude and primitive; but they were not only men of nerve and judgment—they possessed keen and ready perceptions, were eminently thorough, practical, energetic and prompt in all business obligations. With these qualifications they were successful from the very outset, and with the adventitious aid that experience alone can render, their exhibition soon sprang from obscurity to prominence, and cotemporary managers began to discover that this new Lochinvar that had sprung up in the west had become the most formidable competitor with whom they had to contend. But the enterprising brothers were not all content with establishing their exhibition co-equal with the best on the road. If they could obtain thatultimatum, why not go beyond it? Their show had become as good as the best—why not make it better than the best? Why not, in point of magnitude, splendor and multiplicity of attractions, make it so immeasurably the superior of all others existing that all attempts at rivalry or even imitation would be futile? To conceive was to act; and during the winter just passed the brothers set about to successfully accomplish this desideratum. They not only added largely to their already immense zoological and mythological collection, and by liberal offerings secured the services of the most illustrious equestrians, hippodromatic and gymnic talent either hemisphere affords, but they made overtures, which were accepted, looking to a consolidation with the notable kindred exhibitions of Mr. S. H. Barrett, which for many seasons had won favor with the amusement-going public in all sections of the union. With this vast augmentation to their own enormous exhibitional organization, the Sells Brothers come before the people of America, reliant in having beyond controversy, the largest and in every way the best tented show ever organized. These great consolidated shows will be in Marion, Saturday, Sept. 6th.

A Duty to Yourself.

It is surprising that people will use a common, ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for sick-headache and all liver troubles. They are small, sweet, easily taken, and do not grip. Sold by H. C. Hoberman & Co. and W. B. Foye.

Mass Meeting!

The Citizens of Marion are requested to meet at

CITY HALL TO-NIGHT

AT 8 O'CLOCK P. M.

To Consider Means for Securing the Location Here of the Erie Shops.

By order of Council
B. F. DAVIS, Clerk. JOHN S. DUDLEY, Mayor.

—Citizens meeting at City Hall tonight.

—D. J. Humphrey is visiting his mother at Radnor, today.

—Dr. Hensley has sold his property in Virginia, and contemplates erecting a residence in this city soon.

—A liberal response should be made to the call of the Mayor to meet at City Hall tonight at 8 o'clock.

—T. A. Carson, the Union Central agent, has been laid up from office work since Saturday, with kidney and stomach trouble.

—E. G. Gibbs, of Findlay, was calling upon his friends here today. Mr. Gibbs and his father are in the real estate business in the Gas City.

—One of Sells Bros. great advance cars, in charge of S. H. Barrett and twenty assistants, was here today. J. L. Davis was doing the newspaper work for the party.

—Upon the action of Marion citizens may depend the removal of the C. and A. yards and a large number of employes from this place. See what can be done by attending the meeting at City Hall tonight.

—The Kindergarden Co. prides itself with having the finest orchestra traveling.

—Everybody interested in the welfare and growth of Marion should attend the meeting at City Hall tonight

—"Why now I cannot get enough to eat," says one lady who formerly had no appetite, but took Hood's Sarsaparilla.

—All business men have an interest in the welfare of Marion. It will be to their interest to attend the citizens' meeting at City Hall tonight.

—Cards are out announcing the approaching wedding of Ida L. Peters and J. H. Rhoads, at residence of the brides father, A. J. Peters, about 4 miles north of Marion.

—The U. B. Sunday school is requested to meet at the church at 7:30 tomorrow morning, where conveyances will be in readiness to take the party to the picnic at Snyder's grove.

—E. E. Bush was awarded the contract to build the two new sheep barns at the fair grounds. Each barn is to be 20x100 feet, and are to be completed in ample time for the coming great show.

—A small boy falling in a fit on the square this morning caused quite a crowd to gather. It was learned upon inquiry that he was subject to them, and that he had several before coming up town. He was picked up and taken home by Sheriff Kelly.

—T. Jones, the colored cook at Hotel Marion, died Monday night, at the home of T. P. Cooper, in West Marion, of heart disease. Deceased was about 39 years of age. He had been sick since July. The funeral occurred at 2 o'clock this afternoon.

—Frederick Wetzel, a German citizen who has been running a saloon at the William Kraner stand on south Main street for the past two or three years, died at his home above the saloon this morning, at the age of 34 years. Deceased had been sick with typhoid fever for the past two weeks. Funeral services will be held at 2 o'clock tomorrow afternoon, at the Protestant Evangelical church on east South street. The order of Red Men will have charge of the funeral.

The Future Hope.

[Upper Sandusky Union.]

A beautiful little blue-eyed boy dropped into the Union office, this morning. He said his mamma wanted some old papers for her cupboard. He was six years olds he said. He didn't lie. He was too young to have that Republican proclivity. He had beautiful golden curls. His sweet little eyes had an angelic sparkle. His clean-cut classic forehead spoke of intelligence and a bright future. He was as interesting a child as we ever saw, and he talked like a statesman. We toyed him with words, and his repartee was complete, as well as surprising for one of his years. To get off some of our chestnutty wit, we said. "Sonny, give us a chew of tobacco." We thought the little fellow would stare at us in blank astonishment and wonder at so singular a request—but he didn't. Without the least concern, and if, as a matter of no moment, and a recognized courtesy, he placed his delicate little hand in his trouser pocket and pulled out a plug of tobacco almost as large as himself and said. "It's Kelly's Best."

Attention, Bismarks.

The officers and members of Bismark Encampment of the Knights of the Golden Eagle, No. 515, will take notice that a special meeting will be held this evening at Castle Hall for the purpose of making suitable arrangements for the funeral of their beloved brother, Frederick Wetzel.

By order of the Committee

Plums for Canning.

As every person knows that the plum crop is a failure this year, the fact that we have the promise of a large supply should induce those wishing plums for canning to leave their orders with us at once. [232t3] J. W. THEW.

PROSPECT CITIZEN SHOT.

Martin Freeman Shot at Delaware by an Italian Scissors-Grinder.

DELAWARE, O., Aug. 18.—A shooting affray that may prove fatal occurred this evening near the Hocking Valley depot. Jackamo Parlotto, a shear-grinder, who claims New York for his home, while sharpening a knife in some way became engaged in a quarrel with Martin Freeman, of Prospect, and the latter was shot in the face by Parlotto with a heavy caliber revolver, the ball entering just below the eye. Parlotto claims the shooting to have been an accident, but Freeman says it was purposely done and that Parlotto threatened to shoot Nicholas Frank, of Columbus. An uncle of Parlotto is held as a witness. Freeman is in a critical condition.

The shooting was done without the least provocation. With great difficulty the Italian was captured, and only by the heroic efforts of the officers was Judge Lynch prevented from satisfying the enraged mob's desire. Freeman is in the hospital with little hopes of recovery, while the Italian is safely locked up.

Music by Male Quartet.
COM. ON PROGRAM.

The Shanty Club.

It is expected that the local secret organization known as the Shanty Club will be incorporated under the laws of the state this week. The history of the Shanty Club extends back to 1880, when it had its inception among a trio of boys, who organized for self-protection. Since that time the membership has considerably increased, especially during the last couple years, until the organization now numbers about twenty-five members. With this number the order will be incorporated, and it is destined to grow.

The society now looks principally to the social pleasure of its members. A room has been rented in the third story of the Bennett block, which is now being fitted up for comfortable quarters. This is an outcome of the growth of the organization, which has grown beyond the extent of its old quarters. The lodge room will be known as the Shanty, and we are likely to hear more of the Shanty Club in future.

—A pair of companionable drunks were run in by the police Monday evening, charged with disorderly conduct. They were given $5.00 each this morning and released.

Died of Her Injuries.

Mrs. Catharine Wilt, the old lady who was injured the latter part of last week by falling down a stairway into the cellar, died Monday evening at the home of her daughter, Mrs. John E. Kraner, on west South street, at the age of 83 years. Internal injuries were apparent from the first and at no time was there any hope of the woman's recovery at her advanced age.

The funeral services of deceased will occur at the Lutheran church on south East street tomorrow at 10:30 o'clock.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.
